

CASE STUDY:

MinuteBox Revolutionizes Legal Governance Management for Orlando Corporation

Discover how MinuteBox streamlined Orlando Corporation's workflow, making document preparation, signing, and storage a breeze.

ORLANDO CORPORATION

Orlando Corporation is a corporate entity with an in-house legal team. Sandy Gardiner serves as a law clerk and has been using MinuteBox for about a year after discovering it through a colleague.

The in-house legal team at Orlando Corporation was looking for a one-stop solution for their document management needs. They sought to cut down on the repetitive tasks of preparing documents, sending them for signature, and then filing them. They also aimed to simplify multiple entries across their Word documents and iManage system. They were motivated by the following key requirements:

- A centralized system for document preparation and storage
- Efficient handling of bulk changes across multiple companies

Before adopting MinuteBox, the team at Orlando Corporation was using a different software that required separate entry in their iManage system, making the process tedious and time-consuming. With MinuteBox, they managed to eliminate the redundancy and streamline their entire workflow.

Sandy Gardiner
Corporate Law Clerk

"We switched to MinuteBox because everything had to be entered into their [previous software's] system, and then we had to enter it separately through our Word documents or in our iManage system. MinuteBox has completely eliminated that," said Sandy Gardiner, Law Clerk, Orlando Corporation.

Orlando Corporation didn't just find a software provider in MinuteBox; they found a partner. The standout feature for them was MinuteBox's customer service, which is responsive, knowledgeable, and available within hours to resolve any issues or answer questions. Sandy Gardiner appreciated the 'bulk change' feature, especially useful for their in-house legal team who often deal with simultaneous changes across multiple companies.

"The customer service is just top notch. You don't have to wait long, which has been amazing," added Gardiner.

Efficient, User-Friendly and Ever-Improving: Why MinuteBox is a Game-Changer

If your firm is looking for a flexible, user-friendly, and all-inclusive document management system, MinuteBox is the perfect fit. With its responsive customer service and innovative features like 'bulk change,' MinuteBox continuously improves and adapts to meet your needs. It's an ideal solution for both law firms and in-house legal teams.

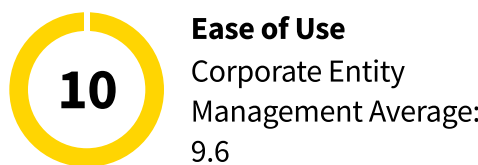

"I would recommend MinuteBox because it is easy, user-friendly, and anyone within your firm or your company can use it without much training. And again, the customer service is just top-notch," said Sandy Gardiner.
