

CASE STUDY:

# Rethinking Entity Management with MinuteBox at Torkin Manes

How MinuteBox revamped the entity management experience, making it a seamless and efficient process for Torkin Manes.

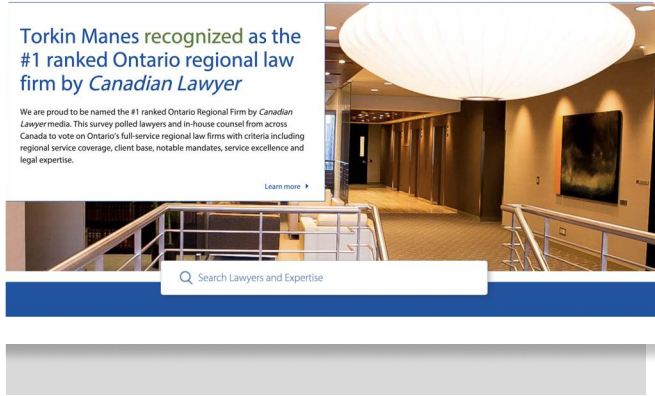

Torkin Manes is a law firm that specializes in corporate law. Senior Corporate Law Clerk Amanda Innes and her team went live with MinuteBox at the beginning of the year, realizing the need for a digital system amidst the pandemic.

The corporate law team at Torkin Manes was grappling with an outdated and slow entity management system they had been using for nearly a decade. They found it extremely frustrating as it made the process cumbersome and time-consuming. They were looking for a faster, more efficient system for several key tasks:

- Seamless onboarding of books
- Quick and efficient entry of minute books
- Generating corporate charts

Switching to MinuteBox dramatically improved their workflow by centralizing everything into a single platform. The time saved has been significant, especially when it comes to entering minute books, a task that now takes a mere 5 minutes compared to an hour before.

## The right law firm changes everything.

As a full-service law firm, we pride ourselves on our broad range of expertise and experience. Our clients have trust and confidence that we truly understand what they do and will work together to advance the success of their business. We have the right team to meet your legal needs when and how you need us.

**Amanda Innes**

Corporate Law Clerk

"Entering in a MinuteBook now can take me five minutes, whereas before it could have taken an hour at least. MinuteBox is revolutionary right now and going forward. I have never seen something like it," said Amanda Innes, Senior Corporate Law Clerk, Torkin Manes.

MinuteBox stood out for Torkin Manes not just for its speed and efficiency but also for its comprehensive features. Amanda particularly loves the 'Corporate Charts' feature, which has been a significant time-saver for the team. She describes the platform as "a one-stop shop," where everything from generating registers to ledgers to the minute book itself is right there. The customer service has also been described as nothing short of 'outstanding,' making the entire experience from onboarding to everyday usage a smooth sail. "The customer service is outstanding," Amanda emphasized.

## MinuteBox: A One-Stop Shop for All Corporate Legal Needs

If your corporate law team is wasting hours on an archaic platform and you need a solution that combines speed, efficiency, and excellent customer service, then MinuteBox is the answer. The software has been a game-changer for firms like Torkin Manes, cutting down the time spent on various tasks, thus making client service more cost-effective.

"The amount of information we can get in at a time, and it's produced right there. We don't have to go to an actual physical MinuteBook. It's right in front of us. We just drag, drop, everything can be done from the one platform. We're not jumping from one thing to the other to the other," said Amanda Innes.
